

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

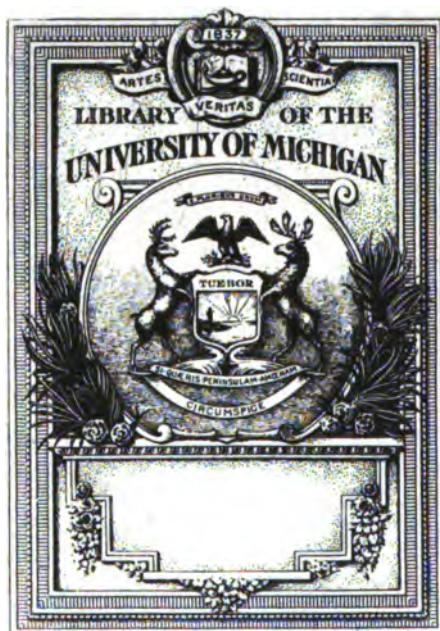

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

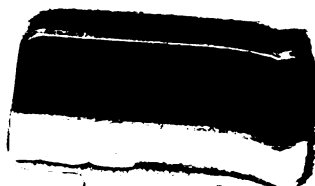

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REPORT.

OFFICE OF THE STATE BOARD OF ASSESSORS,
TRENTON, N: J., October 31, 1910.

To the Legislature of New Jersey:

The State Board of Assessors, in compliance with the provisions of the act of the Legislature entitled "An act to revise and amend an act for the taxation of railroad and canal property, approved April tenth, one thousand eight hundred and eighty-four" (which revision was approved March 27, 1888), and the various acts supplementary thereto, herewith submits its twenty-seventh annual report, which report, because of its absolutely necessary volume, is divided into two parts—Part I showing the valuation and assessment of railroad and canal property, with the statistical tables and other information relating thereto; and Part II showing the assessments levied against miscellaneous corporations organized under the laws of the State of New Jersey, and also showing the assessment and apportionment of the franchise taxes levied under provisions of Chapter 195, Laws of 1900, and supplements, upon corporations using the public streets or highways.

RAILROADS AND CANALS.

So far as concerns the assessment for the year 1910 of property used for railroad or canal purposes, such assessments have been levied against one hundred and twenty-four railroad corporations and one canal company, the particulars and details of which assessments are fully set forth in Scedule A of the appendix to this report; which said assessments also include in detail the valuations of "second class" railroad and canal property, and the tax thereon at full local rates.

The new corporations added to the assessment list of 1910 were as follows:

•
Pennsylvania Tunnel and Terminal Railroad Company of the Pennsylvania Railroad System.

Vineland Branch Railroad Company of the Central New Jersey System.

Harrison and East Newark Connecting Railroad Company.

New Jersey Short Line Railroad Company.

North Jersey Rapid Transit Company.

Rahway Valley Company, Lessee.

Venice Park Railroad Company of the Unclassified Railroads.

REVALUATION OF RAILROAD AND CANAL PROPERTY.

•
Reference was made in the report for the year 1909 to the appointment by the Governor of three Commissioners for the purpose of reinventory and valuing of all property in the State of New Jersey used for railroad or canal purposes, as provided for by Joint Resolution No. 3 of the Legislative Session of 1909. The Commissioners appointed under the Resolution were unable to complete the work assigned to them within the time limited, and as a consequence the Legislature of 1910, by an act approved April 12, 1910 (Chapter 307, P. L., 1910), authorized and instructed the State Board of Assessors to continue the work of revaluation of all railroad and canal property in the State of New Jersey. This Act further provides that "The State Board of Assessors, with the approval of the Governor, shall appoint one of the appraisers heretofore appointed under said Joint Resolution No. 3, expert in charge, with power to employ necessary assistants under him, such expert in charge to have complete authority in the conduct of the work, subject only to the approval of the Board."

In compliance with this provision of Law, the Board selected as the expert in charge Mr. Charles Hansel, who had been one of the three Commissioners under Joint Resolution No. 3, Laws of 1909, this selection being duly approved by the Governor. Mr. Louis Focht, who for many years had been in charge of the engineering work of the State Board of Assessors, was detailed as Chief Engineer and first assistant to Mr. Hansel. Owing to the character and volume of the work to be performed, it was deemed advisable to centrally locate the working force with respect to the great bulk of railroad property which was to be revalued. Messrs. Hansel and Focht therefore obtained quarters in the City of Elizabeth, from

which point operations have been conducted. Numerous "field parties" were selected and assigned to different sections of the State for the purpose of making actual measurements of all properties used for railroad or canal purposes, including lands, tracks and structures. To other agents was referred the duty of ascertaining the values of all property throughout the State lying adjacent to railroad or canal property.

The work involved has been of immense magnitude, and at the time of writing this report, the State Board of Assessors is not in position to submit to the Legislature any definite results. The field parties are practically through with the work of physical measurement and inventory, and a force of engineers and clerks is now engaged in making the necessary computations, based upon the data acquired by the field parties.

"SECOND CLASS RAILROAD PROPERTY" 1906-1909.

The Court of Errors and Appeals, having confirmed the Decision of the Supreme Court setting aside and referring back to this Board the assessments levied upon "second class" property for the years 1906 and 1907 (and by stipulation the taxes upon the same class of property for the years 1908 and 1909), the Board, after mature deliberation, made a horizontal reduction of two and two-tenths per cent. upon the valuation and assessment of certain terminal properties in Hoboken and Jersey City. The Decision of the Supreme Court remanding to the Board these assessments seemed to be predicated upon the theory or idea that in the ascertainment of values there had been included in such ascertainment the value of the franchises of the companies assessed. This view of the Court the Board deprecates. In the fixing of these values, the question of "franchise" was not considered and was not an element:—the values were fixed upon the best judgment of the Board, governed by the intrinsic value of surrounding and similarly located property in Jersey City and Hoboken, and also having in view the adjacency of the railroad property to the navigable waters of New York Harbor. However, under the Decision of the Supreme Court, confirmed by the Court of Errors and Appeals, and with every desire to comply with the Mandates of the Court, the State Board of Assessors has, as stated, made a reduction in valuation of the properties under adjudication.

Upon the question of comparison of the amount of taxes assessed against Railroad Corporations for several years last past, it may be of interest to show that in 1904 the taxes assessed against Railroad Corporations amounted to the sum of \$1,595,121.14, and in 1910, \$5,347,524.37, an increase in tax of \$3,752,403.23, which has been brought about by increased valuations, additions of property, but mainly by increased rates of tax.

In the Annual Report for the current year, the Board has, for the first time since 1885, separately stated the value of "main stems" and "franchises," which two items have hitherto been grouped together, although separately valued and assessed, and which policy of grouping has been done under advice of the Law Officers of the State.

ASSESSMENT OF 1910.

The following is a summary of the valuation and assessment of railroad and canal property for the year 1910:

Assessed valuation of main stem,	\$130,149,210 00
Assessed valuation of franchise,	51,605,400 00
Assessed valuation of tangible personal property necessary for and used in State commerce,	31,207,385 00
<hr/>	
Total assessable for State uses,	\$212,961,995 00
Assessed valuation of real estate used for railroad purposes other than main stem,	73,584,458 00
<hr/>	
Aggregate assessed valuation,	\$286,546,453 00
<hr/>	
Tax for State uses at average tax rate of \$1.856 per \$100 valuation,	\$3,952,574 60
Tax for uses of taxing districts on real estate used for railroad purposes, other than main stem, at full local rates,	1,394,949 77
<hr/>	
Total tax,	\$5,347,524 37

FINANCIAL STATEMENT.

The capital stock and debt as reported are as follows:

Capital stock,	\$211,734,248 00
Funded debt,	226,125,532 00
Unfunded debt,	80,610,290 49
<hr/>	
Total,	\$518,470,070 49

The gross earnings of all lines for the year ending December 31, 1909, were \$81,777,360.88.

Since our last report the term of Mr. David Baird having expired, he retired from the Board, being succeeded by Mr. George E. Halsey, of East Orange.

The customary tabular statements concerning the assessment of railroad and canal property for the year 1910 will be found in the appendix to this report.

Respectfully submitted,

THEODORE STRONG, *President*,
O. C. BOGARDUS,
CHARLES E. HENDRICKSON, JR.,
GEORGE E. HALSEY.

IRVINE E. MAGUIRE, *Secretary*.

APPENDIX.

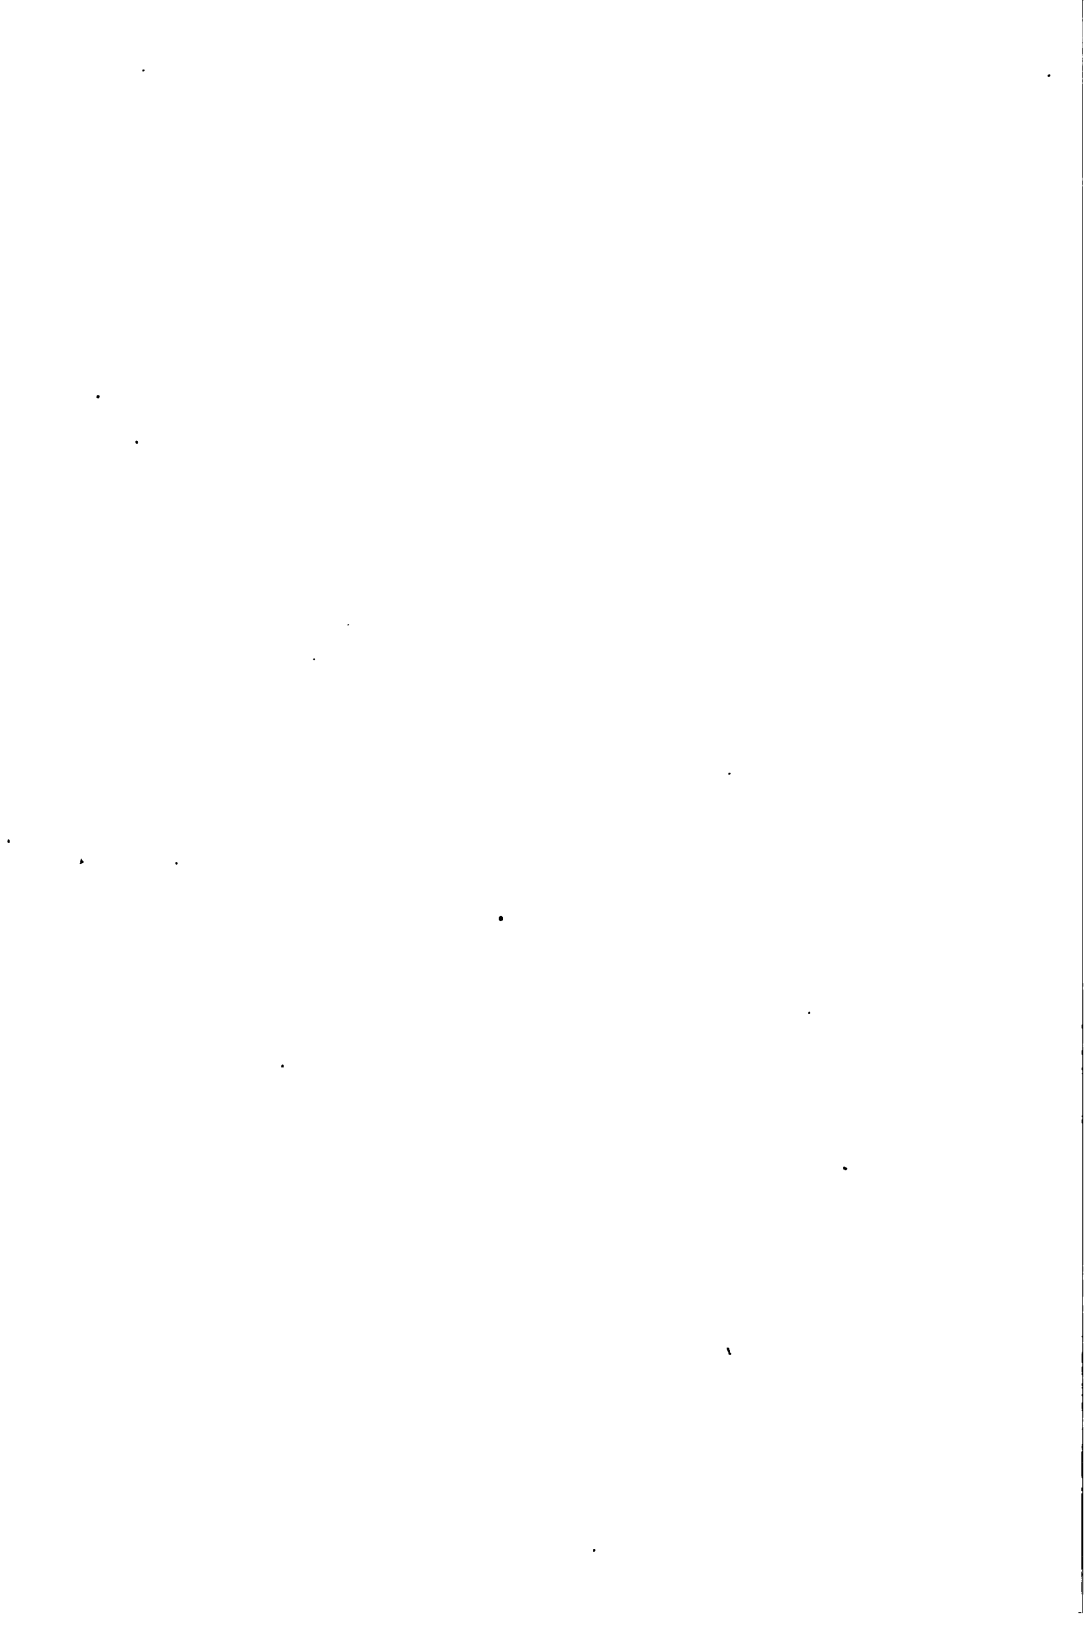

(II)

SCHEDULE A.

Assessments Levied by the State Board
of Assessors on Property of

Railroad and Canal Corporations

For Taxes of 1910.

Pennsylvania Railroad System.

BARNEGAT RAILROAD COMPANY.

MEASUREMENT OF MAIN STEM FOR THE YEAR 1910.

Length of main stem in New Jersey, 7.731 miles.

LENGTH OF MAIN STEM IN TAXING DISTRICTS.

	Miles.
Ocean county, Harvey Cedars borough,	1.960
Surf City borough,	1.297
Long Beach township,	3.016
Barnegat City borough,	1.458
Total miles,	7.731

VALUATION AND ASSESSMENT OF REAL ESTATE OTHER THAN MAIN STEM, FOR THE YEAR 1910.

Taxing District of Harvey Cedars Borough, County of Ocean.

DESCRIPTION OF PROPERTY.

Land outside main stem, 2.30 acres,	\$120 00
Passenger shelter, Harvey Cedars,	250 00
Water tank and pump, Harvey Cedars,	500 00
Engine house, Harvey Cedars,	400 00
Repair shop, Harvey Cedars,	250 00
Total value,	\$1,520 00

Local tax rate, \$1.738.

Tax for taxing district, \$26 42

PENNSYLVANIA RAILROAD SYSTEM.

Taxing District of Surf City Borough, County of Ocean.

DESCRIPTION OF PROPERTY.

Land outside main stem, 2.25 acres,	\$120 00
Passenger shelter and freight platform,	200 00
Total valuation,	<u>\$320 00</u>

Local tax rate, \$2.784.

Tax for taxing district, \$8 91

Taxing District of Barnegat City Borough, County of Ocean.

DESCRIPTION OF PROPERTY.

Land outside main stem, 5.20 acres,	\$280 00
Sidings outside main stem, 2,753 feet,	2,478 00
Tool house,	55 00
Engine house,	340 00
Passenger and freight platform, Fourth street,	50 00
Passenger station, Barnegat,	1,000 00
Total value,	<u>\$4,203 00</u>

Local tax rate, \$2.578.

Tax for taxing district, \$108 35

Taxing District of Long Beach Township, County of Ocean.

DESCRIPTION OF PROPERTY.

Land outside main stem, Baily, 2.25 acres,	\$120 00
Land outside main stem, Bayswater, 2.25 acres,	120 00
Land outside main stem, High Point, 2.25 acres,	120 00
Land outside main stem, Long Beach Club, 2.30 acres,	120 00
Total value,	<u>\$480 00</u>

Local tax rate, \$1.832.

Tax for taxing district, \$8 79

BARNEGAT RAILROAD COMPANY.

17

VALUATION AND ASSESSMENT FOR STATE AND LOCAL USES FOR THE YEAR 1910.

VALUATION.

Assessed valuation of the Barnegat Railroad—

Main stem,	\$14,000 00	
Franchise,	1,000 00	
		<hr/>
		\$15,000 00

Assessed valuation of tangible personal property necessary for
and used in State Commerce,

Total assessable for State uses,	\$15,000 00
Assessed valuation of real estate used for railroad purposes, other than main stem,	6,523 00
	<hr/>

Aggregate assessed valuation, \$21,523 00

TAX.

Tax for State uses, at average tax rate of \$1.856 per \$100 valuation,	\$278 40
Tax for uses of taxing districts on real estate used for railroad purposes, other than main stem, at local rates,	152 47
	<hr/>
Total tax,	\$430 87

BELVIDERE DELAWARE RAILROAD COMPANY.

MEASUREMENT OF MAIN STEM FOR THE YEAR 1910.

Length of main stem in New Jersey, 79.996 miles.

LENGTH OF MAIN STEM IN TAXING DISTRICTS.

	Miles.
